

## PRESS RELEASE

Enermax Revolution85+ wins IF Product Design Award 2010

### Second International Award for Groundbreaking PSU Design

At the beginning of this year Enermax already received the prestigious “red dot design award 2009” for its PSU series Revolution85+. On Monday the high-end PSU series has been honoured once again: The International Design Forum in Hannover announced the IF Product Design Award 2010 for Enermax Revolution85+.

**Hamburg, 27th of November 2009.** At the end of the year 2008 Enermax launched the high-performance and extremely efficient PSU series **Revolution85+**. It signifies the beginning of a new PSU generation. The Revolution85+ combines forward-looking technology with unique design which demonstrates that today’s power supplies do not have to hide in PC cases.

The powder-coated and robust housing with its individual red framed cooling grid visually communicates the power and dynamic inside the Revolution85+ PSU: Up to 91 percent efficiency (80PLUS® Silver certified), six massive 12V rails, DC-to-DC topology, octuple protection circuitry against all possible malfunctions and much else. No doubt, Revolution85+ offers a glimpse into the future of power supply. The jury of International Forum Design in Hannover honoured the outstanding Enermax PSU with IF Product Design Award 2010. More information about PSU series **Revolution85+**.

#### Excellent Enermax Design

Since 1990 the Enermax brand is widely known for high-quality and high-performance PC components and peripherals. The company possesses its own research and design teams who take care of consistent further development of product range – particularly with regard to energy-efficient technologies and solutions. Their innovative ideas and the unique design of Enermax products continuously breathe life into the market. Thus it is no wonder that Enermax won over the last few years several product awards:

**2007:** “red dot design award“ for keyboard **Aurora Premium**

**2008:** “IF Product Design Award“ for HDD enclosure **Jazz**

**2009:** “red dot design award“ for Multimedia keyboard **Aurora Micro Wireless** and PSU series **Revolution85+**

**2010:** “IF Product Design Award“ for PSU series **Revolution85+**

#### About the IF Product Design Award

The IF Product Design Award has been founded in 1953. It became a globally renowned logo for individual and creative product design. Every year, a jury of international experts evaluates all entries according to criteria like manufacturing quality, material, innovative strength, environmental sustainability, functionality or safety.
