

# Fulmo

## ATX Midi Tower

## Features

### **Fulmo: The King of Midi Towers**

High-performance Midi Tower with a lot of space for the most powerful gaming systems. Functional design and innovative solutions for maximal user-friendliness.

### **Hot: Multi-GPU Support**

8 extension slots to support systems with up to three graphics cards. Maximal graphics card length: 410mm.

### **Ice-cold: High-performance cooling with up to 14 fans**

Three or five pre-installed and quiet fans: two 12cm front fans and one 12cm rear fan, additionally one 18cm side fan and one 12cm top fan in the ECA892AG-BL model. Expandable to up to 10 (ECA892AG-BL) or 14 fans (ECA892BG-BL).

### **Flexible: Seamless speed control\***

Synchronous speed control of up to three fans due to integrated fan PCB. The two 12cm front fans (700-1000 RPM) and the 18cm side fan (700-1000 RPM) can be connected to the PCB and regulated by the help of the speed control knob on the top of the case. \* only ECA892AG-BL

### **Spectacular: Vegas Light Show with 6 Effects (ECA892AG-BL)**

Leading Enermax LED technology for unique LED effects and unmatched light intensity. Pre-installed Vegas fans at the front (2x 12 cm) and at the side (1x 18cm) with patented circular LED light and 6 LED modes to choose from. LED button on the top of the case to synchronously change the light effects of the three integrated fans.

### **Stylish: Splash of colour thanks to integrated LED fan (ECA892BG-BL)**

Two blue LED front fans for intense colours and a cool appearance. The LED light can be switched off with the LED knob on the top of the case.

### **Lightning-fast: Ultra High-Speed Data Transfer**

Depending on the model, one or two USB 3.0 interfaces on the top with internal 19P connector.

### **Convenient: Hot-Swap Function for HDD/SSD**

Hot-swap dock at the top to plug-in external 2.5" and 3.5" SATA HDD/SSD. Cover for the SATA connector to keep dust away.

### **Smart: Space-saving, vertical HDD installation**

Innovative, vertical mounting system for HDD/SSD: The Brackets can be pulled out to install up to six 2.5" disks or four 3.5" disks. The vertical HDD mounting clears space for oversized graphics cards and ensures a much better air circulation and cooling. Two further 3.5" bays at the bottom.

# Features

## Simple: Quick and tool-less system installation

Innovative vertical HDD brackets, quick release fasteners for ODD and extension cards. Mainboard tray with cut-out for a convenient CPU cooler installation. Removable top cover for easy fan or radiator mounting. Thumb screws for side panels.

## Safe: Bottom-mounted PSU

With dust filter, anti-vibration rubber pads and a velcro fastener for a secure PSU mounting at the bottom of the case.

## Proper: Well-thought Cable Management

Much space behind the mainboard tray and many cable holes with rubber grommets for clean and hidden cable routing.

## Comfortable: Easy accessible top interfaces

1-2x USB 3.0, 2x USB 2.0 and Audio I/O.

## Breezy: First-class Passive Cooling

Embossed, high-quality honeycomb steel mesh front, mesh areas at the side and on the top for unrestricted air circulation and excellent passive cooling. All mesh areas with cleanable dust filters.

## Fresh: Much Space for Liquid Cooling Systems

Five water cooling holes with rubber grommets at the back of the case. Supports radiators with max. 240mm.

2.5"/3.5" hot-swap dock & USB 3.0 port

Easily removable top cover

Innovative vertical HDD brackets

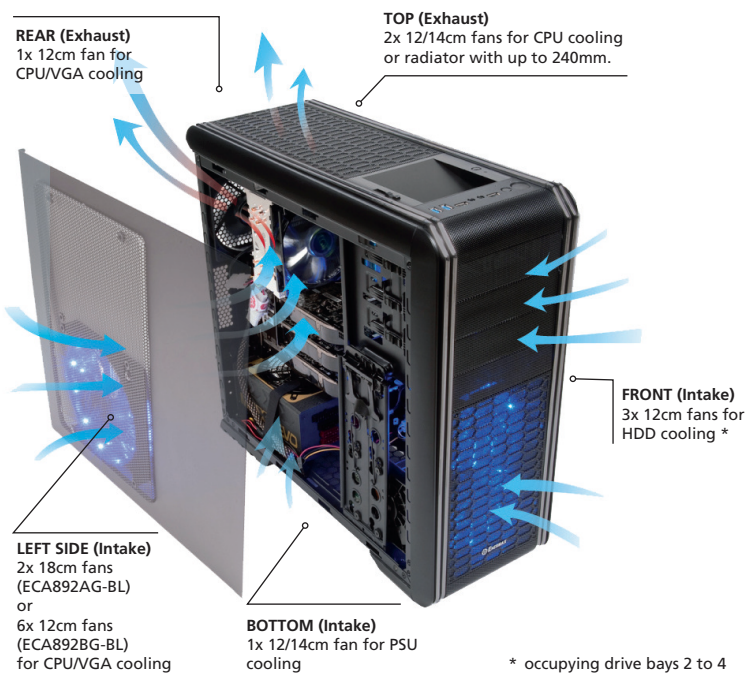

8 screwless extension slots

Velcro fastener for secure PSU mounting

## Cooling System

## VGA Card Support

Support graphics cards up to 410 mm length.

# LED Technology: Spectacular Vegas Light Show only ECA892AG-BL

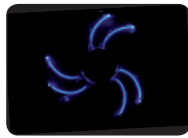

By pushing the LED knob on the top of the case, all three Vegas fans can be controlled simultaneously.

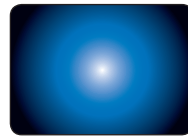

All LEDs on

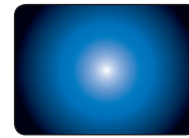

Propeller

Triple Propeller

Flash

Vegas\*

OFF

\* **Vegas-Mode** – repeated: Lighthouse / Propeller / Triple Propeller

**Memory function:** The fan is equipped with a memorizing function and will save the last mode which has been chosen before shutting down the system.

**Quick-Off-Funktion:** To switch off the LED light, you can alternatively press the light button on the front for ca. 3 seconds.

## Specifications

Model		ECA892AG-BL	ECA892BG-BL
Type		ATX Midi Tower	
Dimensions (mm)		D 520 x W 221 x H 505	
Material		0.7 mm SECC	
Drive Bays	5.25"	4	
	3.5"	6	
	2.5"	6 (converted from 4x 3.5")	
Hot-swap Dock 2.5"/3.5"		Top side	
M/B		ATX, mATX	
Top I/O		2x USB 3.0, 2x USB 2.0, HD/AC'97 Audio	1x USB 3.0, 2x USB 2.0, HD/AC'97 Audio
Air Cooling	Front	pre-installed: 2x blue 12cm Vegas fans optional: 1x 12cm fan (occupying drive bays 2 to 4)	pre-installed: 2x blue 12cm LED fans optional: 1x 12cm fan (occupying drive bays 2 to 4)
	Left Side	pre-installed: 1x blue 18cm Vegas fan optional: 1x 18cm fan	optional: 6x 12cm fans
	Right Side	optional: 1x 9/12cm fan (max. 20mm depth)	optional: 1x 9/12cm fan (max. 20mm depth)
	Top	pre-installed: 1x 12cm fan	optional: 1x 12/14cm fan
	Bottom	optional: 1x 12/14cm fan	optional: 1x 12/14cm fan
